Learn from predecessors, improve knowledge, practice, and strive to become a fullstack programmer as soon as possible.

### EXPERIENCE

#### 16DaTeams E-commerce Management Tool (Group Project)

- Tool to help manage e-commerce sales in small retail stores, written in C#, using the .NET WindowForm framework
- The tool has CRUD features for product categories, shippers, customers,...
- Print the report to Excel file
- Project's github Link: <https://github.com/KunLam16/BTL-DotNet>

#### LoudSound Music Listening Website (Personal Project)

- The music listening website has features to view the artist's profile, the artist's hit songs, increase or decrease the volume, rewind music, view lyrics, use HTML, CSS and JavaScript.
- Project's github Link: <https://github.com/KunLam16/LoudSound-Music-Web>
- Page Link: <https://kunlam16.github.io/LoudSound-Music-Web/>

#### Aventure Flappy Bird Game (Personal Project)

- The game is based on the original Flappy Bird game, but has different levels and different lands, built with C# and Unity Engine
- The game features level selection, score display, and collision handling
- Project's github Link: <https://github.com/KunLam16/Aventure-Flappy-Bird>
- Link Game: [https://drive.google.com/file/d/1bLH5hCrtvN6tVpttn\\_OiSGyUxKVEsvlk/view](https://drive.google.com/file/d/1bLH5hCrtvN6tVpttn_OiSGyUxKVEsvlk/view)

### EDUCATION

#### National Economics University - NEU (2020 - Now)

Final year student majoring in Information Technology - School of Information Technology & Digital Economy - National Economics University
